

Data Plan Pricing and Plan Description

In partnership with Verizon, Watchfire provides affordable cellular service to make it easy to update your Watchfire sign.

The purchase price for Broadband Wireless (cellular) communication option along with the Watchfire Data Plan, includes all necessary equipment and the first year of data at the current rate of \$200, or five years of cellular service at the rate of \$570. After the completion of the initial data plan, Watchfire will bill data plan customers on an annual basis. Current annual rate is \$200.

In order for Watchfire to provide prompt and accurate billing to all Watchfire Data Plan customers, and to prevent any temporary suspension of cellular service, please complete the billing information below;

Business Name: Palatine Township

Billing Address:

Street: 721 S. Quentin Rd. Suite 101

City: Palatine

State/Zip: IL, 60067

Phone: 847-358-6135

Email: klopez@palatinetownship.com

I agree to the terms and pricing outlined in this Plan Agreement:

Buyer Signature: Date: 7/18/16

Buyer Name (please print): Sharon Langlotz-Johnson

Initial service will start at time of sign shipment. Service is limited to Verizon 3G coverage area and is subject to availability.

For more information, visit <http://www.verizonwireless.com/wireless-coverage-area-map.shtml>.

Watchfire/Verizon Plan Disclosure: If wireless service is used, Buyer expressly understands and agrees that Buyer has no contractual relationship whatsoever with the underlying wireless service provider or its affiliates or contractors and that Buyer is not a third party beneficiary of any agreement between Watchfire and the underlying carrier. In addition, Buyer acknowledges and agrees that the underlying carrier and its affiliates and contractors shall have no legal, equitable or other liability of any kind to Buyer, and Buyer hereby waives any and all claims or demands therefor.

BROADBAND WIRELESS

Watchfire offers a broadband wireless data plan that provides dependable service across Verizon's 3G network coverage area. The Watchfire Data Plan is an inexpensive, convenient way to get reliable broadband wireless internet service for Watchfire signs up to 80,000 pixels.

An internet-connected Watchfire sign can be updated, monitored and diagnosed remotely, and is compatible with our Ignite OPx mobile application. The Watchfire Data Plan also makes it easier to network and control several signs from a single computer, which can simplify sign management for businesses with multiple locations.

Fast, secure internet connection. The Watchfire Data Plan provides a secure internet connection through a 3G cellular modem. 98%* of the US is covered by the Watchfire Data Plan, so you can update your sign anytime, from almost anywhere. Sign updates are quick and easy with upload speeds up to 3Mbits per second.

Simplified sign management. Watchfire takes the guesswork out of account setup and management by providing the data plan as a turnkey solution complete with service support.

Easy installation. The modem and data plan are fully configured and ready to work when a Watchfire LED sign is installed. The Watchfire Data Plan does not require fiber or networking cable installation.

Save time and money. The first year of service is bundled into the option price and there are no extra setup fees or hidden charges. Your customers can save money and time by purchasing extended plan packages at a below-market rate.

Mobile updates. Manage sign playlists and view diagnostic reports from your mobile device with Ignite OPx mobile application. There is nothing to install, and all of your changes will be synced to your PC automatically.

Smart Sign Communication

VALUE

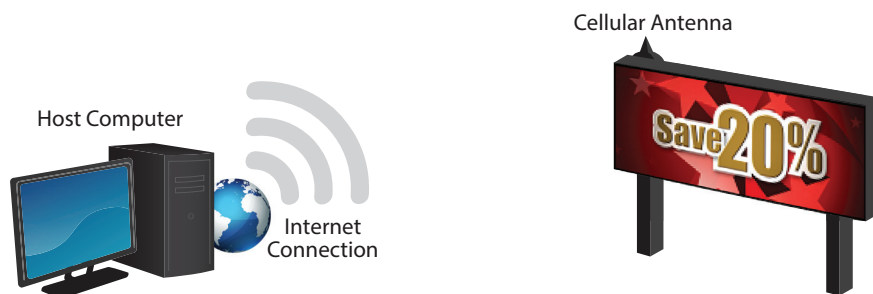

- **Your internet service** is bundled into the option price, with incentives for long-term packages.
- **Save money** by locking in a below-market rate.
- **Rates for signs** with up to 80,000* pixels:
 - 1-Year annual rate:**
 - less than 30,000 pixels - \$200
 - 30,000 to 80,000 pixels - \$275
 - 5-Year annual rate:**
 - less than 30,000 pixels - \$114 (\$9.50/month)
 - 30,000 to 80,000 pixels - \$129 (\$10.75/month)

CONVENIENCE

- **Update and access diagnostics** from your mobile device with the Ignite OPx mobile application.
- **Simplify administration** with package billing and contract renewal.
- **Watchfire is your single source** for sign and data plan service and support.

COVERAGE

- **98% of the US*** is covered by the Watchfire Data Plan, so you can update your sign anytime, anywhere.
- **Sign updates are quick and easy** with upload speeds up to 3Mbits per second.

Broadband	Speed	Network Ready	Security
Broadband Wireless		✓	Password-based Authentication; SSL Encryption

[NOTE: Some sign purchases may not be eligible for the Watchfire Data Plan. Signs with more than 80,000 pixels or locations outside the Verizon 3G network should arrange for wireless data service with an independent provider. Signs with 80,000 pixels or more will require an external NEMA 4 enclosure for broadband wireless service.]
